

# Using Inventories

On of the best ways to get to know our ancestors is to study their inventories. Through their possesions we get a glimpse of the way our ancestors lived, what kind of work they did, and even sometimes what they ate. Let us take a look at some of the inventories of the early Mummas

#### Lorentz Momma

Very little is known about Lorentz. He arrived on the ship Two Brothers 13th Oct, 1747. This ship did not list the women and children, so we do not know what family came with him.

He was on the tax list of Earl Township in 1750. When he died intestate in 1754 he left a brother and a wife and children, but we do not know their names. From his inventory we see how much he had accumulated in the seven years since his arrival in America.

Inventory of all & singular the goods and chattles of Lorentz Muma deceased. Praised the 6th day of March Anno Domini 1752.

Leonard Mumma, the immigrant, died in June or July 1770 intestate, leaving Julianna his widow. She relinquished her right to administer the estate to George Mumma the oldest son

From the Earl Township assessment lists it appears that in 1758 Leonard Mumma retired and turned his farm over to Jacob, his oldest son still at home. Leonard appeares on the 1757 tax list, but in 1758 and 1759 he is replaced by Jacob, who would have been 21 in Dec. 1757 The assessments lists are missing for 1760-1768. Sometime in this period Jacob relinquished the farm to his younger brother Leonard, who came of age in in 1763. It is uncertain what became of this Jacob. Leonard Jr. remained on the tax lists of Earl twp. from 1769 to 1773 when he bought land in Brecknock twp. In 1767 he replaces his father as guardian of John Mumma, the orphan son of his brother Christian. This may indicate that Leonard had become incapacitated about this time.

When Leonard died in 1770 he had been retired from farming for about 13 years. Most of his estate consisted of bonds due from Leonard Jr.

Even though this inventory is very short there are are some hints that Leonard may have been a cooper. Perhaps after he turned the farming over to the boys he worked at the cooper's trade for some years.

A just and true inventory of all and singular the goods chattels and credits of Leonard Muma Seiner of Earl Township in the county of Lancaster Letely Decased. Made the 30th day of September 1770

## 11 Jacob Mumma

Jacb Mumma was under 16 when he arrived with his father, his sister Margaret and brother Frederick. He married first Ann Grittor/ Kreider the daughter of Michael. This accounts for his being the uncle of the children of John Jacob Crider in 1747. So we know they were married before 1747. She was still alive in 1754, but she had died before 1765when Jacob relinquished any rights in the inheritance of Michael the nephew. 2

Lancaster deed records show a Jacob with a wife Elizabeth in 1762, but this could be a different Jacob, possibly his son who is mentioned in his fathers will as the oldest.

When Jacob wrote his will in 1791 his wife was Catherine, who was first mentioned in deeds in 1770. In the will he asked that his wife and children continue to live together for a year after his decease then that his property be sold at public vendu (sale). This sale took place ca 1 May 1795. So He died possibly a year before this date. He is probably the Jacob Mumma in Maytown with 3 males over 16 0 under 16 and 2 females in the 1790 census.

### 251 Christian Mumma

Christian, son of David, was raised in Hempfield Twp., Lançaster County Pa. After the family moved to Baltimore County Maryland, he and his brother Abraham were both baptised as adults in the Reformed Church. He married Catherine Watts, and their children were baptised in the Reformed Church of Baltimore County.

This inventory is not complete as the bottom of the pages was cut off in copying, but it gives us a picture of a prosperous market gardene who hauled his produce to the city to sell.
